WE KNOW THESE HILLS BETTER THAN ANYONE

# *Casa del Cavallo*

*Casa del Cavallo* is one of those extraordinary homes where you are immediately entranced by the spell of its own beauty. Every element has been carefully sculpted to convey the home's romantic appeal, substance and attention to detail. Spanning 110-foot in length, Mediterranean materials of stucco and natural stone are embellished by decorative columns, multiple rooflines with metal accents and Tuscan chimney caps. Inside, an open floor plan offers approximately 3200 square feet of living space including three bedrooms, three full baths, powder room and separate laundry room. Lower level boasts a bonus room ideal as exercise area, wine vault or office space. And, you'll appreciate the convenience of having an oversized double-car garage with workspace in basement.

A dramatic double sided foyer introduces this lovely home. Upon entering through custom arched doors made of hard rock maple, you will immediately be inspired by the cathedral ceiling, rustic wood columns and stone faced tile flooring with set-in design. Additionally the front entry door is highlighted by glass surround with wrought iron accents. The rear entry door, which is a replica of the center of the front door, provides access from a 14-foot peaked portico coming off driveway.

The gourmet kitchen offers a wealth of amenities for the chef. Notice the Venetian gold granite countertops; custom cabinetry; Dacor 5 grill gas cooktop with overhead exhaust hood accented with decorative design; stainless KitchenAid double ovens; stainless microwave/convection oven; trash compactor; Maytag dishwasher; built-in KitchenAid stainless refrigerator; and a handy center island with double cast iron sink and Kohler faucets. The open floor plan allows easy viewing of the two-way fireplace, a delightful breakfast area and sliding French doors opening onto a future intended outdoor patio area.

***Dining:*** Depending on your needs, this versatile dining area is designed for entertainment on an intimate or grand scale. In typical Tuscan tradition, the room is accented with an exposed beamed ceiling and warm sienna finishes inspired by nature. While dining, you and your guests will enjoy the added beauty of viewing evening sunsets through French doors opening out onto a secluded courtyard.

***Living room:*** Boasting varied cathedral ceilings with accent peaks and walls of glass, this dramatic living room is designed to bring the outdoors inside. Custom designed one-of-kind mullions with arched transoms over windows and sliding French doors take full advantage of the southern exposure and beautiful views. At the room's center is a wormy chestnut Circa 1790 mantle from an Antebellum Mansion. It handsomely surrounds a raised two-way fireplace with built-in wood box, gas starter and stone covered hearth. The backside of the fireplace opens into the kitchen for further enjoyment.

**Master Suite:** The privacy of the master suite is maintained by its location at one end of the home. With entry coming off the foyer, you first pass through a delightful private study with a wood-burning fireplace accented with marble tile and bronze rope. Full of ambiance, the master bedroom itself features a tray ceiling, recessed lighting, Russian red oak flooring and a private covered balcony. The walls are angled to allow you to wake up in the morning looking directly out over rolling pastures and a picturesque barn. The suite also features a dressing area and large walk-in closet with window for natural light.

**Master Bath:** His and Hers separate baths are connected by a custom 5x5 marble tiled doubled door walk-in shower with dual seats and two shower heads. Her side has the added bonus of an oversized Jacuzzi. Both sides offer decorative furniture pieces housing luxury sinks, upscale fixtures, recessed lighting, lovely sconces and heat/vent lights. An added sense of sanctuary is created by large arch topped double windows looking into your own private woods.

***Equestrian Facilities:*** With its high pitched roof, arched windows over double Dutch-doors, decorative columns and Tuscan-inspired detail, this stunning 50X38 foot barn mirrors the same impeccable style of the home. Beautiful in appearance yet highly functional in its design, your horses will enjoy the comfort of four oversized stalls with rubber matting, excellent ventilation and exterior block walls with added insulation to keep them cool in the summer and warm in the winter. Equestrians will appreciate the beauty of a tongue and groove ceiling rising up into a spectacular windowed cupola. Also featured is a 12-foot cement center aisle, under floor drainage system, recessed lighting, indoor wash rack and enclosed hayloft. Tack room doubles as a small guest quarters with kitchenette, full bath and closet with washer/dryer hookup. A paddock at the rear of barn provides gated access to as many as three separate pastures. Trail riders will also enjoy direct ride-out onto miles of the FETA trail system offering the ability to hack directly to FENCE.

*The Grounds:*

This idyllic pastoral setting ending at a quiet cul-de-sac includes gently rolling pastures, majestic oak trees, a southern exposure and mountain views. A drilled well produces approx 50 gallons per minute. Manifolds have been placed outside of house and barn for ease of irrigation.

Additional acreage available.

### *The Location:*

Cradled in the foothills of Tryon, North Carolina, *Casa de Cavallo* is located in an area known for its active equestrian community. The region is home to hunter pace events, dressage and carriage clubs, fox hunting, horse shows and an annual steeplechase. The charm and character of the Tryon-Columbus-Landrum area offers a quality of life unlike any other in the region. Moreover, with a major highway system that includes I-26 and U.S. 74, you'll find proximity to major airports and ease of travel to nearby cities such as Hendersonville and Asheville, NC and Spartanburg, SC.
